ACROSS POLARIS

ACROSS POLARIS is an instrumental progressive metal band currently based in China. The band was founded by Yeff Marval (Keyboards) and Hector Rivas (bass) after been playing together in a previous project but they were still having lots of ideas to keep making music. After many years making music through internet, they reunited in China and decided to invite Ali Rodriguez (drums) to join the band. ACROSS POLARIS is currently producing new singles that have started to release on digital platforms and are also receiving nice feedback from the audience in music platforms around the world.
